LOTS OF SQUARES & DOTS

Print out your **Squares & Dots** sheets and take them to school or on your next road trip for non-stop fun!

Let's get this silly game started - it's time to play "Squares and Dots!" Take turns adding lines to create squares—no need to bring in snacks! Keep dotting, connecting and leaving your mark until the puzzle is complete. Count up the squares and see who comes out on top. May the best player win!
